

For student interviewers

- What were some early surprises with the experience at your school?
- How do you spend your time in school?
- Was there something that you learned about late in your [school] career that you thought wow I wish I knew about this day 1?
- (For current second years) How did the way you spend time at school differ between first and second year?
- What have been some of your biggest learning experiences? What lessons had the greatest impact on you so far (personally and professionally)?
- I have heard about the experiences that many students have traveled, either through academic programs, clubs, or socially. Can you tell me about your favorite trip?
- What would you have done differently?
- What experiences have you had at school that you recommend to others specifically?
- Do you have any advice for me?

For alumni interviewers

- When you look back on your experience at school, was there anything that surprised you? Has there been anything as an alum that surprised you?
- Was there something that you learned about late in your [school] career that you thought wow I wish I knew about this day 1?
- What are some of the most interesting activities / events you've been involved in as an alum?
- As you think about to your experience, what do you remember most?
- What were some of your biggest learning experiences during your time at school? What lessons had the greatest impact on you (personally and professionally)?
- I have heard about the experiences that many students have traveled, either through academic programs, clubs, or socially. Can you tell me about your favorite trip?
- What would you have done differently?
- Do you have any advice for me?

For admissions staff

- What do you enjoy most about being part of the [school] community?
- What are some of the biggest changes that you've seen at the school? What has remained consistent?
- What do you wish applicants understood about the process?
- What are some of the characteristics that hold true to people's perceptions? What are the most common misperceptions of your program?
- Do you have any advice for me?
